

AHMED SHITTU

🏠 Budapesterstraße 2, 99427 Weimar. Thüringen, Deutschland *(open to relocate)*

✉️ ahmed.shittu.0378@gmail.com | ☎️ +49(0)15906732500

PROFILE

Civil and structural engineer (MSc) moving into sustainability within the energy and infrastructure sector. Combines research in low-carbon, circular construction materials with strong analytical, data-validation and reporting skills, plus a track record of coordinating cross-functional engineering, project-management and commercial teams on infrastructure projects. Detail-oriented and structured, with a risk-focused MSc specialization and a keen interest in environmental and social sustainability frameworks. Native English speaker with working German (B1) and GIS / data-analysis skills, seeking a junior sustainability role focused on reporting, circularity and data-driven decision-making.

BERUFSERFAHRUNG

- | | |
|-------------------|---|
| 04/2025 – Present | Structural Engineer (Part-time), Ingenieurbüro Prof. Dr. U. Freundt <ul style="list-style-type: none">• Conduct structural assessment of existing bridges under revised load and usage assumptions, extending the service life of in-place infrastructure and avoiding the carbon and cost of premature replacement.• Develop strengthening and retrofitting concepts for concrete bridge structures, prioritizing material-efficient, low-impact solutions.• Applied relevant standards and software for verification and assessment of structural safety. |
| 06/2024 – Present | Research Associate, Bauhaus-Universität Weimar <ul style="list-style-type: none">• Lead micromechanical and multiscale modeling research on recycled concrete, advancing the structural performance and viability of low-carbon, circular construction materials.• Conducted extensive research and analysis to improve the understanding and application of recycled concrete in construction.• Developed Semi-Analytical Models and Finite Element Models (FEM) for predicting mechanical behavior and durability of recycled concrete. |
| 04/2023 – 09/2023 | Structural Engineering Intern, Büro Happold GmbH <ul style="list-style-type: none">• Contributed to the structural design and analysis of concrete, steel, and composite structures across early and mid-project phases (LP1–LP4).• Performed preliminary design checks to optimize material usage and reduce project cost and embodied impact.• Performed load calculations, static analyses, and stability checks in compliance with applicable standards.• Participated in collaborative design review meetings to address complex engineering challenges. |
| 11/2017 - 01/2021 | Civil Engineer, Ariosh Limited, Nigeria <ul style="list-style-type: none">• Directed a team of six interns in developing 3D models for Oil and Gas platforms.• Conducted quality checks on 3D models and 2D construction drawings to ensure compliance with client specifications.• Coordinated cross-functional teams (engineering, marketing, and project management) to develop innovative project solutions.• Enhanced project safety ratings by 60% through identifying and mitigating critical structural issues. |

EDUCATION

10/2021 – 03/2024	Bauhaus-Universität Weimar MSc. Structural Engineering, (Spezialisierung: Natural Hazards and Risk in Structural Engineering) Master's Thesis: Topology Optimization as a Tool for Lightweight Structural Design with Grasshopper (Focus: Sustainability, Design Optimization, Innovation). <i>Key Modules:</i> Computational Wind Engineering, Long-Span Bridge Design, Earthquake Engineering, Structural Mechanics, FEM, Structural Health Monitoring, Mathematics, Structural Dynamics, Project and Disaster Management, Geotechnics, GIS.
08/2012 - 09/2016	Federal University Oye-Ekiti, Ekiti State, Nigeria B.Eng. Civil Engineering GPA: 4,20/5,00 (German equivalent - 1,65) <i>Key Modules:</i> Construction Management, Concrete and Steel Design, Transportation and Geotechnics, Water Resources & Environmental Engineering, Hydraulics.

TRAININGS & ADDITIONAL CERTIFICATIONS

05/2025	Structural Engineering in Germany (Compact Course) IQ Netzwerk und MFPA
05/2019	Energy Transition: Innovation for a Low-Carbon Future (MOOC) Total IFP Institute, Frankreich

PROJECTS & RESEARCH

- Modal Analysis of a Steel Truss Bridge
(Used Software: RFEM, Bluebeam Revu, AutoCAD, MACEC)
- Buffeting Analysis of the Mersey Gate Bridge
(Used Software: VxFlow CFD, Sofistik, Matlab)
- Wind-Induced Vibrations of Bridge Decks in Turbulent Flow Fields
(Used Software: Matlab, VxFlow CFD)

KEY SKILLS

Software:	FEA (SOFiSTiK, Dlubal RFEM, FRILLO, Hafen HDB, ANSYS); Modeling (AutoCAD, SAP2000, REVIT, Bluebeam Revu, Aveva E3D, Navisworks, Rhino 7, GIS); Programming (Matlab, Python, Grasshopper); MS-Office (MS Word, Excel).
Sprachkenntnisse:	Deutsch (B1); Englisch (Native Proficiency); und Yoruba (Mother Tongue)
Driving Licence:	Driver's license class B
Soft Skills:	Expertise in structural design, building construction, observation and management, technical drawings and cost estimation, site development, and project management. Strong negotiation, complex problem-solving, research, geospatial (GIS) and data analysis skills.

AWARDS & SCHOLARSHIPS

03/2021	DAAD-EPOS- Scholarship through Deutscher Akademischer Austauschdienst
06/2015	Lagos State Undergraduate Scholarship, Lagos State Government
11/2015	Award for Outstanding Students from, Nigeria South-West Federal Universities.

♥ INTERESTS AND HOBBIES

- **Interests & Hobbies:** Reading (history, technology), innovation, infrastructure; football, table tennis, painting.
